For retail business looking to move to a tablet POS system that is affordable and easy to install, the TM-m30II tablet POS printer from Epson is the ideal choice. Thanks to ePOS-Print SDK, the TM-m30II easily communicates with web-based applications, ensuring receipts can be printed quickly and seamlessly from any mobile device.

Stylish compact

Sleek, stylish and compact, the TM-m30II is one of the smallest POS printers in the world. Its size means it can be placed almost anywhere, making it perfect for any retail environment and especially those with limited space. Available in black or white, it can be used as a top or front access printer.

Extra USB ports for enhanced connectivity

The hub version of the TM-m30II features additional USB ports including an Apple device charging port for convenience.

Easy to install

Print directly from any smart device with ePOS-Print on both iOS and Android systems. Additional Ethernet, Bluetooth, USB and Wi-Fi connectivity are available.

Easy pairing with mobile devices

NFC connectivity (Near Field Communication) means the TM-m30II can be easily paired with tablets and smartphones. Simply bring the devices close together to make the connection. For added convenience and flexibility, pairing by QR code is also possible.

Connectable

A single printer can be dynamically shared across multiple tablets with different interfaces.

Direct printing from web browsers

Epson's innovative ePOS-Print technology means the TM-m30II can quickly, easily and seamlessly integrate with any PC, tablet, laptop or mobile device via a Wi-Fi or Bluetooth interface. Whether the device is running iOS, Android, Windows CE or Windows mobile, direct printing from the web browsers becomes possible without the need to install or update any other drivers.
